Another stunning design from Classic

The creation of this magnificent residence, as with all of Classic's homes, includes flexibility and design and has produced an outstanding result. Extra-wide hallways and entry are stand-out characteristics of this traditional home. Exceptionally large, open living areas with high, flat and cathedral ceilings enhance the appearance of the home and achieve a high level of natural light and warmth. This home incorporates modern architecture with timeless design & appeal.

Classic Building has designed a home that is both functional & spacious with every space in the home having been utilized & carefully thought about. What has been created is a home that is relaxed, welcoming & yet striking in its details.
